	<i>Voter Rationale: Boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. In addition, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. Also, this director is not sufficiently independent to serve as the independent lead director.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
---	--	------	-----	---------

Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Moreover, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval.</i>				
3	Ratify PricewaterhouseCoopers LLP as Auditors	Mgmt	For	Against
<i>Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.</i>				
4	Reduce Ownership Threshold for Shareholders to Call Special Meeting	SH	Against	For
<i>Voter Rationale: Holders of significant share capital should be entitled to call a special meeting. A total holding requirement of 5% is a suitable threshold to prevent abuse.</i>

<i>Voter Rationale: We oppose dual class structures with impaired or enhanced voting rights. The company should amend its structure to allow for equal voting rights among shareholders.</i>				
1.3	Elect Director Aaron C. Tolson	Mgmt	For	Withhold
<i>Voter Rationale: Directors who represent major shareholders are not sufficiently independent to serve on key committees as their interests may not be well aligned with the wider group of shareholders.. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, the board imposed a forum selection clause without prior shareholder approval. The corporate governance committee should oppose measures that restrict investors' access to courts, and reverse the measure or, at the very least, put the matter to an investor vote. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. In addition, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i>				
4	Amend Omnibus Stock Plan	Mgmt	For	Against
<i>Voter Rationale: This plan could lead to excessive dilution. In addition, incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. Moreover, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i>

	<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, the board should act with accountability to the investors it represents and take action where a substantial proportion have expressed concerns over compensation practices in previous years. Moreover, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Furthermore, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. <p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Furthermore, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. <p><i>Voter Rationale: The board should act with accountability to the investors it represents and take action where a substantial proportion have expressed concerns over compensation practices in previous years. Furthermore, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Furthermore, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders. In addition, companies should establish and disclose a policy on hedging of company stock by executives. <p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Furthermore, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. 	<i>Voter Rationale: Whilst we appreciate the company's long term aim and strategy, the plan is unclear on the absolute emissions reductions it will lead to or for the forecast mix of fossil fuels vs low carbon solutions. While the company aims to be a net-zero energy business by 2050, its proposed transition plan is highly dependent on (1) intensity rather than absolute reduction targets and (2) policy makers to enable reductions in scope 3 emissions. * The company is planning to continue the expansion of its Oil & Gas production between 2021 and 2026, which severely undermines the credibility of the plan as a whole.</i>

	<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Also, directors with long board tenures should not serve on committees that require absolute independence. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Given that there has been meaningful board refreshment during the year under review, support is warranted at this time and the matter will be kept under review. However, we are still opposing this nominee because changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. In addition, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>			
2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	<i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Also, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. In addition, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Moreover, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i>			
3	Approve Omnibus Stock Plan	Mgmt	For	Against
	<i>Voter Rationale: Incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. Also, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time.</i>

1.1	Elect Director Walter P. Glazer, Jr	Mgmt	For	For
<p><i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>				
1.2	Elect Director Katherine F. Franklin	Mgmt	For	For
1.3	Elect Director Edward E. Williams	Mgmt	For	Withhold
<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Also, this director is not sufficiently independent to serve as the independent lead director.</i></p>

<p><i>Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.</i></p>				
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Moreover, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Also, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i></p>

<p><i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board failed to remove, or subject to a sunset requirement, the classified board structure which adversely impacts shareholder rights. Executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. Bonuses are ultimately discretionary and equity awards are entirely time-vesting. In addition, the CEO's base salary is relatively high.</i></p>

<i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. <p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Furthermore, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Lastly, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.</i></p>

<p><i>Voter Rationale: The key issues raised in the Vote No Campaign include the failure to assess the CEO's incentives and potential flight risk in the face of a declining growth environment, and a lack of oversight of management's progress in integrating recent acquisitions. This suggests a loss of focus at the board level. In this particular case, Ellertson's long tenure (12 years) and prior role as CEO of Everbridge should have positioned him to carry out these responsibilities more effectively. Given that the Chair appears to bear direct responsibility for these issues, support is not warranted for this nominee.</i></p>				
1.4	Elect Director Bruns Grayson	Mgmt	For	Withhold
<p><i>Voter Rationale: The sudden impact on share price as a result of the departure of the CEO indicates a lack of succession planning on behalf of the board, a responsibility that would fall to the Chair of the nominating and corporate governance committee. Voter Rationale: Boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, we expect companies to have policies in place to increase racial and gender diversity on the board. Our minimum expectation is that female directors comprise at least 25% of board members for a company of this size, with an aspiration to achieve 30% in the future. Moreover, this director is not sufficiently independent to serve as the independent lead director.

---	--	------	-----	---------

Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
---	--	------	-----	---------

Voter Rationale: The remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Also, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval.

<i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the classified board and the supermajority vote requirement to enact certain changes to the charter, each of which adversely impacts shareholder rights. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. <p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. Moreover, directors with long board tenures should not serve on committees that require absolute independence. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For

Voter Rationale: All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. In addition, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest. Moreover, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.

Also, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>			
4	Remove Executive Perquisites	SH	Against	For
	<i>Voter Rationale: While the aggregated costs of NEO perquisites are not excessive, they represent a non-performance-based benefit that is not generally available to the broader employee population. Such perquisites are not considered to be a best practice and their elimination would be considered a pay program improvement.</i>			
5	Amend Bylaws to Limit Shareholder Rights for Proposal Submission	SH	Against	Against
	<i>Voter Rationale: The right of shareholders to submit proposals is governed by SEC rules, and company-specific restrictions on such rights, even if legally permitted, would remove or impair an important avenue of communication between shareholders and the board.</i>			
6	Set GHG Emissions Reduction targets Consistent With Paris Agreement Goal	SH	Against	For

<i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board failed to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the charter which adversely impacts shareholder rights.</i>

Voter Rationale: Boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Furthermore, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. Given that there has been meaningful board refreshment during the year under review, support is warranted at this time and the matter will be kept under review. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Moreover, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i>

	<i>Voter Rationale: Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. In addition, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Moreover, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Furthermore, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Lastly, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i>

	<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time.. Moreover, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Furthermore, this plan could lead to excessive dilution. Also, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job.</i>

<i>Voter Rationale: Boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, this director is not sufficiently independent to serve as the independent lead director. Moreover, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

<i>Voter Rationale: Severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Also, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Moreover, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>

<p><i>Voter Rationale: In response to the prior low support for say-on-pay, the company adequately disclosed its engagement efforts as well as the feedback provided by shareholders. Additionally, the company demonstrated a robust response by making commitments and several meaningful pay program improvements to address the concerns shared by shareholders. Annual incentives are entirely performance-based, and long-term incentives utilize a multi-year measurement period and are half performance-based, reflecting a significant increase in the proportion of PSUs for the NEOs other than the CEO. PSUs tied to relative TSR target above-median performance and include a negative absolute TSR modifier, and the revisions made to the annual incentive plan increased the reliance on objective criteria for that plan. Further, the company has taken steps to improve NEOs' change in control related compensation entitlements to better reflect market practice. While we still have concerns around the CEO's potential severance, we are encouraged by the company's responsiveness to shareholders and will support this proposal at this time.</i></p>

<i>Voter Rationale: Executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. Specifically, the NEOs received sizable discretionary bonuses and solely time-vesting equity awards. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

<p><i>Voter Rationale: This plan could lead to excessive dilution. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Moreover, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Also, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job.</i></p>

Voter Rationale: Board elections (Items 8.1.1 – 8.2) Votes AGAINST the non-independent nominees, Andreas Schmid and Corine Mauch, are warranted because of the failure to establish a majority-independent board. As a result, a vote AGAINST Andreas Schmid as board chairman is also warranted. However, votes FOR the independent directors Guglielmo Brentel, Josef Felder, and Stephan Gemkow are warranted due to a lack of concerns. Committee elections (Items 8.3.1 – 8.3.4) Votes AGAINST the non-independent nominees Vincent Albers, Eveline Saupper, and Andreas Schmid (non-voting member) are warranted due to insufficient committee independence. We note that the company has a combined nomination and compensation committee. As such, a vote AGAINST the incumbent committee member (and board chair), Andreas Schmid, is further warranted as a signal of concern to the board because the board is insufficiently gender diverse, excluding government representatives. However, a vote FOR the independent nominee Guglielmo Brentel is warranted due to lack of concerns.

<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

<p><i>Voter Rationale: Executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. Specifically, due to a pay-for-performance misalignment. Bonuses paid out to NEOs were largely discretionary and LTI awards lack performance criteria, with RSUs granted to certain NEOs having a relatively short vesting period.</i></p>

-----	---------------------------------	------	-----	----------

Voter Rationale: Former employees or company founders are not sufficiently independent to serve on key board committees. Also, directors with significant business ties to the company are not sufficiently independent to serve on key committees. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Moreover, executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. Specifically, due to a pay-for-performance misalignment. Bonuses paid out to NEOs were largely discretionary and LTI awards lack performance criteria, with RSUs granted to certain NEOs having a relatively short vesting period. Furthermore, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.

<p><i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board failed to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Also, executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Lastly, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i></p>

<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Furthermore, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness.</i></p>

<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.</i></p>

Moreover, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. Moreover, this director is not sufficiently independent to serve as the independent lead director. Lastly, executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. CEO pay is oversized due to uncapped pay opportunities and is not strongly performance-based.</i></p>

	<p><i>Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. Also, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. In addition, directors with long board tenures should not serve on committees that require absolute independence. Moreover, directors with significant business ties to the company are not sufficiently independent to serve on key committees. Furthermore, directors whose close family members are employed at the company are not sufficiently independent to serve on key board committees and should be considered affiliated directors. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness.</i></p>

Voter Rationale: The annual incentive is primarily based on pre-set objective metrics with payout caps, and while the lack of a cap on the individual performance factor and scope for committee discretion could provide for upside potential in bonus award payouts, the committee has only used its discretion to reduce awards. The CEO's equity award was majority performance-based, although we encourage better disclosure on forward-looking targets for the metrics and would like to see a cap on payouts if TSR is negative.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Moreover, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years.</i></p>

	<p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Furthermore, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Also, the board should act with accountability to the investors it represents and take action where a substantial proportion have expressed concerns over compensation practices in previous years. 3	Amend Omnibus Stock Plan	Mgmt	For	Against
---	--------------------------	------	-----	---------

Voter Rationale: This plan could lead to excessive dilution. Also, plan renewal should be subject to shareholder approval. In addition, reducing the strike price of options already granted after the stock price has fallen undermines any employee incentive strategy and is not aligned with the interests of shareholders. Moreover, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Furthermore, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Lastly, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job.

	<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. Furthermore, this director is not sufficiently independent to serve as the independent lead director. Also, we voted against this director as a member of the audit committee because shareholders should be given the opportunity to approve the auditors annually.</i>

	<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness.</i>			
2	Approve Omnibus Stock Plan	Mgmt	For	Against
	<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Moreover, this plan could lead to excessive dilution. Also, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Lastly, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i>

<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.</i></p>				
3	Ratify Ernst & Young LLP as Auditors	Mgmt	For	Against
<p><i>Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.</i></p>				
4	Reduce Ownership Threshold for Shareholders to Call Special Meeting	SH	Against	Abstain
<p><i>Voter Rationale: While we generally believe holders of significant share capital should be entitled to call a special meeting and that a total holding requirement of 5% is a suitable threshold to prevent abuse, in this case the requested 10 percent ownership threshold may be too low for a company of this size as two company insiders would each be able to unilaterally call a special meeting at the proposed threshold.</i></p>				
5	Amend Omnibus Stock Plan	Mgmt	For	Against
<p><i>Voter Rationale: This plan could lead to excessive dilution. Furthermore, incentive plans that allow for loans to exercise options are inconsistent with good practice and should be eliminated. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Moreover, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. <p><i>Voter Rationale: We expect companies to have policies in place to increase racial and gender diversity on the board. Our expectation is that there be at least one female director on the board for a company of this size. 3	Amend Omnibus Stock Plan	Mgmt	For	Against
<p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, incentive plans that allow for loans to exercise options are inconsistent with good practice and should be eliminated. Moreover, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Likewise, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Lastly, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i></p>

In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Specifically, although cash severance is double trigger and reasonably based, and no excise tax gross-ups are payable, a majority of NEOs' equity will be accelerated upon consummation of the merger, with an undisclosed portion representing performance equity. The proxy does not disclose at what level of performance such awards were deemed to have been earned. Additionally, CFO Curran may receive accelerated vesting after a voluntary resignation for a recently-granted equity award.

Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Also, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. In addition, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. Moreover, changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Furthermore, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.

The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Also, we expect companies to have policies in place to increase racial and gender diversity on the board. <p><i>Voter Rationale: While we note the changes in RSUs, ESG metric inclusion, and outreach conducted following the failed say-on-pay result last AGM, we remain concerned about several aspects of the company's executive compensation plan. Mainly, we've noted LTIP structural concerns regarding payout thresholds and incentivising underperformance over multiple AGM cycles. The Q&A disclosure appears to underscore additional LTIP concerns raised by fellow investors that remain unaddressed. Furthermore, we find it problematic that the company disclosed in a follow-up proxy solicitation that shareholders were not expecting significant modification of the compensation design after a failed say-on-pay the year prior.</i></p>

<p><i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. In addition, executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

<p><i>Voter Rationale: Directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Given that there has been meaningful board refreshment during the year under review, support is warranted at this time and the matter will be kept under review. However, we will still oppose this nominee because, we expect companies to have policies in place to increase racial and gender diversity on the board. Our expectation is that there be at least one female director on the board for a company of this size. Also, we voted against this director as a member of the audit committee because shareholders should be given the opportunity to approve the auditors annually.</i></p>

<p><i>Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. In addition, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders. Also, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i></p>

<i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>				
1.2	Elect Director Larry J. Gordon	Mgmt	For	Withhold
<i>Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity.</i>				
1.3	Elect Director Benjamin J. Allen	Mgmt	For	Withhold
<i>Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: The remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. In addition, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval.</i>				
3	Ratify Ernst & Young LLP as Auditors	Mgmt	For	Against
<i>Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.</i>

<i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. In addition, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

<p><i>Voter Rationale: Directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, this director is not sufficiently independent to serve as the independent lead director. Also, executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Furthermore, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control.</i></p>

	<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Furthermore, we voted against this director as a member of the audit committee because shareholders should be given the opportunity to approve the auditors annually. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i></p>

1.1	Elect Director Jeffrey D. Lorenger	Mgmt	For	For
<i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>				
1.2	Elect Director Larry B. Porcellato	Mgmt	For	Withhold
<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Furthermore, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness.</i>				
1.3	Elect Director Abbie J. Smith	Mgmt	For	Withhold

2	Ratify KPMG LLP as Auditors	Mgmt	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Also, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Further, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>

	<i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. In addition, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

	<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment.</i>

<p><i>Voter Rationale: The remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. In addition, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Moreover, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders. Also, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i></p>

<i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. <i>Voter Rationale: A vote AGAINST this proposal is warranted given that the authorized shares of common stock will not be proportionally reduced in connection with the reverse stock split, and the effective increase in the number of authorized and unissued shares of common stock is excessive, especially when considered in conjunction with the proposed increase in common stock (Item3).</i>				
5	Amend Omnibus Stock Plan	Mgmt	For	Against
<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, reducing the strike price of options already granted after the stock price has fallen undermines any employee incentive strategy and is not aligned with the interests of shareholders. Moreover, plan renewal should be subject to shareholder approval. Furthermore, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Also, this plan could lead to excessive dilution. Additionally, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Lastly, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control.</i>

<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. <p><i>Voter Rationale: Executives from acquired companies are not sufficiently independent to serve on key board committees and should be considered affiliated directors. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, we expect companies to have policies in place to increase racial and gender diversity on the board. Our minimum expectation is that female directors comprise at least 25% of board members for a company of this size, with an aspiration to achieve 30% in the future. Moreover, this director is not sufficiently independent to serve as the independent lead director. Furthermore, executive directors are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. <i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, the board should act with accountability to the investors it represents and take action where a substantial proportion have expressed concerns over compensation practices in previous years. In addition, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Lastly, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>

The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Given that there has been meaningful board refreshment during the year under review, support is warranted at this time and the matter will be kept under review. However, we will still oppose this nominee because executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.</i></p>

2	Approve PricewaterhouseCoopers LLP as Auditors and Authorize Board to Fix Their Remuneration	Mgmt	For	Against
<p><i>Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.</i></p>				
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Moreover, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Furthermore, the board should act with accountability to the investors it represents and take action where a substantial proportion have expressed concerns over compensation practices in previous years. Also, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i></p>

10	Advisory Vote on Remuneration Report	Mgmt	For	Against
<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Also, companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period. Likewise, substantial pay-outs under incentive schemes should only be available for superior performance. Reaching threshold targets may warrant vesting of only a small proportion of incentive awards.</i>

<p><i>Voter Rationale: Executive pay is not in line with company performance because the company has not adequately responded to last year's low say-on-pay vote results. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: While we note the outreach conducted by the company following the low say on pay result at the last AGM, we remained concerned about several aspects of the company's executive compensation. The company has not provided any public commitment to limiting one-off grants in the future, which has led to a significant increase in overall quantum for executives. Furthermore, while the company has amended the STI and LTI based off feedback from investors, we note that these changes have introduced further discretion into the annual bonus and introduced shorter performance measurements into the long term equity grants. We would expect to see robust disclosure of any assessment used for the annual bonus payouts. Given that we remain concerned with the overall quantum available to the CEO and other NEOs, the lack of public commitment regarding one-off grants, and some of the structural changes to the short and long term incentive plans, we will not support this proposal.</i></p>

4	Amend Omnibus Stock Plan	Mgmt	For	Against
<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job.</i>

<i>Voter Rationale: The remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Also, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval.</i>				
4	Require Independent Board Chair	SH	Against	For
<i>Voter Rationale: Appointing a fully independent chairman creates a balance of power that is more conducive to long-term performance. A board headed by management cannot reasonably provide the best oversight and evaluation of management's performance.</i>

1.3	Elect Director Ian T. Blackley	Mgmt	For	Withhold

Voter Rationale: Executives from acquired companies are not sufficiently independent to serve on key board committees and should be considered affiliated directors. Also, former employees are not sufficiently independent to serve on key board committees. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness.

Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Furthermore, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. In addition, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.

Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Furthermore, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, the corporate governance committee has permitted a poison pill. The best defense against a take-over is strong management and a successful strategy. Where poison pills are adopted, they should be approved by shareholders prior to deployment, include independent oversight, and last for a limited time. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.

Voter Rationale: Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. Also, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. In addition, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.

1.1	Elect Director Iain Dukes	Mgmt	For	For
-----	---------------------------	------	-----	-----

Voter Rationale: We expect companies to have policies in place to increase racial and gender diversity on the board. Our minimum expectation is that female directors comprise at least 25% of board members for a company of this size, with an aspiration to achieve 30% in the future. Given that the number of female directors has increased since the last AGM, we will keep this matter under review. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

1.2	Elect Director Athena Countouriotis	Mgmt	For	Withhold
-----	-------------------------------------	------	-----	----------

Voter Rationale: Executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.

---	--	------	-----	---------

Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders

13	Approve Remuneration Policy of CEO and Executive Corporate Officers	Mgmt	For	Against
<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Further, the remuneration policy should provide details of the rules governing the award of the annual and long-term variable incentives, any exceptional components and termination arrangements. Also, companies should consider introducing deferral element and clawback provisions to the short- and long-term incentive schemes in line with market best practice. Moreover, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Additionally, all cash or share-based awards and payments that fall outside the company's remuneration policy should require ex-ante shareholder approval. Likewise, the company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i>

Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Moreover, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time Also, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control.</i>

1.2	Elect Director Ann D. Rhoads	Mgmt	For	Withhold
<i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. The board failed to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Moreover, executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. The company provided limited disclosure with respect to the annual incentive program, which is particularly concerning given that bonuses were earned above target. In addition, equity awards are entirely time-vesting. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

2	Amend Omnibus Stock Plan	Mgmt	For	Against
	<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, this plan could lead to excessive dilution. In addition, reducing the strike price of options already granted after the stock price has fallen undermines any employee incentive strategy and is not aligned with the interests of shareholders. Moreover, plan renewal should be subject to shareholder approval. Furthermore, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Likewise, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Lastly, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i>

<i>Voter Rationale: Directors who represent major shareholders are not sufficiently independent to serve on key committees as their interests may not be well aligned with the wider group of shareholders.. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness.</i>

Voter Rationale: The remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. In addition, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Moreover, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders

	<i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>			
1.2	Elect Director Darrell Webb	Mgmt	For	Withhold
	<i>Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, directors with long board tenures should not serve on committees that require absolute independence. Former employees or company founders are not sufficiently independent to serve on key board committees. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. Also, changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the classified board and the pop-up supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights. Moreover, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i>

<i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Moreover, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.</i>

1a	Elect Director Alan D. Feldman	Mgmt	For	For
<i>Voter Rationale: Boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. Given that there has been meaningful board refreshment during the year under review, support is warranted at this time and the matter will be kept under review. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: Severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. In addition, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Also, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>

9	Report on Public Health Costs of Limited Sharing of Vaccine Technology	SH	Against	Against
<i>Voter Rationale: The company provides sufficient disclosure on its COVID-19 business strategy and how it assesses global vaccine production and limitations on vaccine technologies, and shareholders may be better served by relying on analysis from others, such as the scientific and economic community, to evaluate the relationship between intellectual property rights, the economy, and portfolio returns.</i>

12	Publish Third-Party Review of Alignment of Company's Lobbying Activities with its Public Statements	SH	Against	For
<i>Voter Rationale: The company provides reasonable disclosure of its political donations. However, it should enhance transparency around its public policy priorities, as well as its key relationships with trade associations that engage on lobbying on its behalf.</i>				
13	Adopt Policy to Include Legal and Compliance Costs in Incentive Compensation Metrics	SH	Against	For
<i>Voter Rationale: In light of the significant shareholder concerns recently raised regarding the company's exclusion of certain litigation-related costs from the executive compensation program, along with the magnitude of recent litigation expenses and the continued exclusion of a similar expense from the 2021 incentive program, we will support this proposal. It appears the proposal provides the board with flexibility to adjust the application of the policy in individual circumstances, with an explanation to shareholders, and as such the request is not viewed as overly prescriptive.</i>

<p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. 3	Ratify PricewaterhouseCoopers LLP as Auditors	Mgmt	For	Against
<p><i>Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.</i></p>				
4	Adopt Fossil Fuel Financing Policy Consistent with IEA's Net Zero 2050 Scenario	SH	Against	For
<p><i>Voter Rationale: Climate change presents ongoing and serious risks to shareholder value. Consistency with the IEA's NZE—to meet the net zero energy transition, keep warming under 1.5 degrees, and avoid massive risk to shareholder value—may demand a policy commitment like the one being proposed.</i></p>

5	Reduce Ownership Threshold for Shareholders to Call Special Meeting	SH	Against	For
<i>Voter Rationale: Holders of significant share capital should be entitled to call a special meeting. A total holding requirement of 5% is a suitable threshold to prevent abuse.</i>				
6	Require Independent Board Chair	SH	Against	For
<i>Voter Rationale: Appointing a fully independent chairman creates a balance of power that is more conducive to long-term performance. A board headed by management cannot reasonably provide the best oversight and evaluation of management's performance.</i>				
7	Disclose Director Skills and Qualifications Including Ideological Perspectives	SH	Against	Against
<i>Voter Rationale: The company appears to provide sufficient information for shareholders to be able to assess how well-suited director nominees are for the board and whether there are any gaps in skills, experience, or other attributes.</i>				
8	Amend Certificate of Incorporation to Become a Public Benefit Corporation	SH	Against	Against
<i>Voter Rationale: The request for the board to amend the company's incorporating documents to become a PBC does not appear to be necessary for the company to act in a responsible and sustainable way.</i>				
9	Report on Absolute Targets for Financed GHG Emissions in Line with Net Zero Commitments	SH	Against	For
<i>Voter Rationale: Climate change presents ongoing and serious risks to shareholder value. Consistency with the recent NZBA comments—that they do not support the financing of fossil fuel expansion in order to keep warming under 1.5 degrees and avoid massive risk to shareholder value—may demand a policy commitment like the one being proposed.</i>

Voter Rationale: Executives from acquired companies are not sufficiently independent to serve on key board committees and should be considered affiliated directors. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness.

Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.

Karuna Therapeutics, Inc.

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Vote Instruction
1b	Elect Director Atul Pande	Mgmt	For	Withhold
<p><i>Voter Rationale: Directors who represent major shareholders are not sufficiently independent to serve on key committees as their interests may not be well aligned with the wider group of shareholders.. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. Also, changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. In addition, the board imposed a forum selection clause without prior shareholder approval. The corporate governance committee should oppose measures that restrict investors' access to courts, and reverse the measure or, at the very least, put the matter to an investor vote. Moreover, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i></p>				
1c	Elect Director Denice Torres	Mgmt	For	For
2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Also, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. Moreover, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i></p>

<i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Moreover, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Furthermore, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>

<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Also, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. In addition, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. Voter Rationale: Directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, this director is not sufficiently independent to serve as the independent lead director. Moreover, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.

2	Ratify Deloitte & Touche LLP as Auditors	Mgmt	For	Against
---	--	------	-----	---------

Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
---	--	------	-----	---------

Voter Rationale: The remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. In addition, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Moreover, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Also, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.

<p><i>Voter Rationale: The roles of Chairman and CEO are substantially different and generally should be separated. Separation of roles is important for securing a proper balance between executives and outside shareholders and preserving accountability. Also, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

<i>Voter Rationale: Severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Furthermore, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Finally, companies should not extend vesting periods or allow re-testing of performance targets because this weakens the effectiveness of incentive schemes.</i>

<p><i>Voter Rationale: The board should submit directors for re-election individually, rather than as a single slate to enable shareholders to hold directors individually accountable for their performance. Also, executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Further, the board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Also, significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. In addition, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Moreover, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders</i></p>

<i>Voter Rationale: This plan could lead to excessive dilution. 1.1	Elect Director Jeffrey Albers	Mgmt	For	Withhold
<p><i>Voter Rationale: Executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.</i></p>				
1.2	Elect Director Joanna Horobin	Mgmt	For	Withhold
<p><i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the classified board and the supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights. Also, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.</i></p>				
2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. Moreover, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders.</i></p>

<i>Voter Rationale: Boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. In addition, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. <p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Moreover, incentive awards to executives should include robust performance targets that reward strong performance and drive shareholder value over a sufficiently long period of time defined as at least three years. Also, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i></p>

<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Also, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment.</i></p>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Also, the company should put clawback provisions in place to enable it to re-coup funds should it identify any facts of manipulation of reported indicators or other bad faith actions which were detrimental to the long-term interests of its shareholders. Moreover, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i></p>

Finally, we have concerns about the lack of sufficient disclosure regarding the company's carbon emissions reduction targets and its climate change governance system. We would also like to see a more coherent disclosure on its strategy targeting green buildings. <p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, a larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Also, the remuneration committee should not allow vesting of incentive awards for below median performance as this is considered to be rewarding under performance of peers. Finally, the uncapped structure of the annual bonus is concerning and has resulted in significantly high pay for both co-CEOs and the executive Chair.</i></p>

<p><i>Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Also, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, given the board's failure to remove, or subject to a sunset requirement, the problematic capital structure, the supermajority vote requirement to enact certain changes to the bylaws, and the classified board, each of which adversely impact shareholder rights. Moreover, executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. Specifically, the CEO's pay was very large due to a one-time performance-based grant. However, the entire award is based on individual performance, measured annually. In addition, while the short-term incentive program was primarily performance-based, the CEO's target bonus was excessive. Also, executive pay is not in line with company performance because the company has not adequately responded to last year's low say-on-pay vote results. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Moreover, reducing the strike price of options already granted after the stock price has fallen undermines any employee incentive strategy and is not aligned with the interests of shareholders. Also, this plan could lead to excessive dilution. Furthermore, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Additionally, incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. Lastly, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job.</i></p>

In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. <p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Furthermore, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. <p><i>Voter Rationale: The plan's structure and pay-for-performance results are not sufficiently strong. Good practices include: well disclosed and stretching performance targets; performance triggers for equity awards; using different metrics for the short and long-term plans; measuring company outcomes against its appropriate peer group; and setting awards so that executives are not rewarded for below-average performance. These and other approaches will ensure that the compensation committee designs compensation packages that build shareholder value over time. Moreover, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Furthermore, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. In addition, companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest. <i>Voter Rationale: Minority shareholders have appointed competing nominees for the single fiscal council seat (and alternate) reserved for ordinary minority shareholders. While all candidates appear to be well-qualified, a vote FOR incumbent candidates Luiz Carlos Nannini (alternate Fernando Antonio Lopes Matoso), presented under Item 5.1, is recommended as there are no known concerns regarding the proposed nominees, and the nominee appear to have more experience serving in either fiscal councils or audit committees of publicly traded companies, which includes serving as the financial expert on the internal audit committees of three companies. As minority shareholders can only elect a single fiscal council member and alternate, an ABSTAIN recommendation is warranted for Item 5.2. This recommendation, however, should not be interpreted as a negative assessment of the experience or qualifications of the competing minority nominees Marco Antonio Mayer Foletto (alternate Alexandra Leonello Granado). <p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Furthermore, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness.</i></p>

The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. In addition, this director is not sufficiently independent to serve as the independent lead director. Also, we expect companies to have policies in place to increase racial and gender diversity on the board. Our minimum expectation is that female directors comprise at least 25% of board members for a company of this size, with an aspiration to achieve 30% in the future.</i>

Voter Rationale: Executive officers are expected to hold no more than one external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.

Voter Rationale: The board imposed a forum selection clause without prior shareholder approval. The corporate governance committee should oppose measures that restrict investors' access to courts, and reverse the measure or, at the very least, put the matter to an investor vote. In addition, directors are elected in classes rather than annually, but shareholders should have the opportunity to communicate with directors regularly on their performance. The board should take immediate steps to declassify itself, thereby enhancing accountability.

2	Approve Qualified Employee Stock Purchase Plan	Mgmt	For	For
3	Ratify Ernst & Young LLP as Auditors	Mgmt	For	Against

Voter Rationale: The company has engaged the same audit firm for more than 20 years. There is value for investors in gaining new perspectives on finances and controls. Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.

4	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
---	--	------	-----	---------

Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Moreover, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.

<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. In addition, boards where more than a third of directors have served for more than 12 years lack balance. The nominating committee should take action to ensure an appropriately fresh board and reduce the proportion of long standing directors to reduce the risk of entrenchment. Moreover, directors with long board tenures should not serve on committees that require absolute independence. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The compensation committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. 5	Amend Omnibus Stock Plan	Mgmt	For	Against

Voter Rationale: Incentive plans that allow for loans to exercise options are inconsistent with good practice and should be eliminated. In addition, reeducing the strike price of options already granted after the stock price has fallen undermines any employee incentive strategy and is not aligned with the interests of shareholders. Moreover, the plan improperly allows for accelerated vesting for an overly broad range of corporate restructuring scenarios and such provisions fail to reward performance. Rather, equity should be rolled forward into any successor company, or vest in a time-apportioned fashion only to the extent that performance conditions are met or if an executive loses his job. Also, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Lastly, on early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control.

1.1	Elect Director Prashant (Sean) Aggarwal	Mgmt	For	Withhold
	<i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a reasonable sunset requirement, the problematic capital structure, the supermajority vote requirement to enact certain changes to the governing documents, and the classified board, each of which adversely impacts shareholder rights.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	<i>Voter Rationale: A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. In addition, incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Also, all exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Finally, companies should not extend vesting periods or allow re-testing of performance targets because this weakens the effectiveness of incentive schemes.</i>			
4	Report on Lobbying Payments and Policy	SH	Against	For
	<i>Voter Rationale: The company provides reasonable disclosure of its political donations. However, it should enhance transparency around its public policy priorities, as well as its key relationships with trade associations that engage on lobbying on its behalf.</i>
